

Fry Box Artwork Guideline

Everything you need to build print-ready artwork for the BistroPack Fry Box dieline handling, color, type, and the final checks before your file goes to press.

 Size 155 x 110 x 75mm	 Base Material Brown Kraft / White	 Print Option Outside Only	 Color CMYK, 4 PMS Max	 Sustainability Recyclable
---	---	---	---	---

01. Dieline and Bleed

Your unique structural dieline is included in the print file. It defines exactly where the box is cut and folded, so treat it as read-only.

- 01. Do not move, edit, rotate, or recolor the dieline layer.
- 02. Extend backgrounds to fill the full bleed area 5mm minimum on all sides.
- 03. Keep text and logos 3mm inside the trim line as a safety margin.
- 04. Place your artwork only on the "Your Design Here" layer.
